About us

Pamas Group is considered one of the leading national companies specialized in many commercial activities, and it has been operating since its founding in 1978. We have strong relationships with the most famous international and local companies in all the fields in which we work, to keep up the modern architecture and technological development that the Kingdom is witnessing, and to work with the Kingdom's vision. ambitious 2030 and achieving its goals.

Thanks to our God grace and success, we worked with the largest governmental and civil society agencies, and we consider them our partners in success.

Vision

Providing the best services through a qualified and trained work team equipped with the best equipment to improve installation, maintenance, measurement and calibration services in all sites and projects entrusted to us to serve our customers professionally while applying the highest quality standards.

The Pamas Group is also qualified in many specializations and is accredited by:

- ✓ Aramco Certification Vendor ID: 10026342 (AV01632869455)
